

MDwise is pleased to announce the **PMP Lead Testing Incentive**

This lead screening program is an easily achievable, simple incentive plan. It is designed to reward and recognize MDwise Primary Medical Providers who meet the requirement of lead testing children **before their second birthday**. As an incentive for your cooperation in this lead screening endeavor, MDwise will reimburse you as described below when you provide a lead test to a MDwise Hoosier Healthwise member.

Procedure Code	MDwise Medicaid Reimbursement
36416 Collection of a capillary blood specimen for lead test	\$15.00
83655 If you have the capability to perform the lead test in your office	\$25.00 With or without UI modifier

We look forward to your partnership and collaboration with **Lead Testing** and other future endeavors to increase quality outcomes.

MDwise thanks you for the quality care you deliver!
